Company's Introduction

Phusion Studios is a multifaceted production company with state-of-the-art equipment, cutting edge technology, and innovative and creative individuals who partner with potential clients to bring their vision to life.

Phusion Studios aims not only to be your one stop shop when it comes to building your business and brand, but also, we aim to partner with you to bring your vision to the world.

Project & Plan Example: Introduction

I chose these selected pieces of work because they demonstrate my style, ability, and skill. On the projects listed below I have either worn the proverbial hat of a music producer, engineer, songwriter, and or artist.

Song Breakdown (YOU)

Unlike other songs (enclosed in this submission), that I've created that are one hundred percent original I used the an instrumental from an artist that I discovered in a previous class (Michal Montano- 'fast wine') I sang lead and background vocals (BGV's) then afterwards I utilized some effects on my voice and began mixing the song

Song Breakdown (Right Now)

For this particular piece I created this track utilizing Logic Pro's stock plugins I created everything from scratch using my MIDI Controller, no vocals are available for this project.

Song Breakdown (Orchestral Pieces: 'Anxiety' and 'The Challenge')

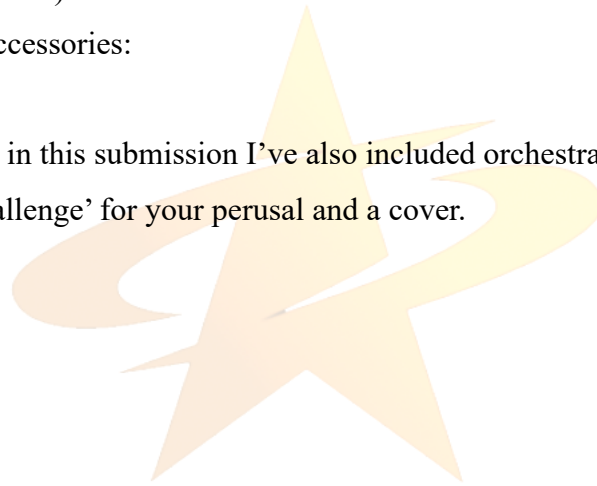

These pieces were also made in logic pro and created by me using my Midi Controller but this time I used the Novation included in the project launch box. I also used Kontakt 7 as a plugin to create this sound.

Below are the list of items I used in the creation of this project.

- Audio Interface (Focusrite Scarlett 18i20):
- Studio Monitors (pair, KRK Rokit 5 G4):

- Microphones:
- Condenser Mic (Neumann TLM 103):
- Dynamic Mic (Shure SM58):
- MIDI Controller (Akai MPK249):
- Studio Headphones (Beyerdynamic DT 770 PRO):
- Digital Audio Workstation (Pro Tools):
- Acoustic Treatment (panels and bass traps):
- Computer (iMac 27-inch):
- Audio Cables and Accessories:

Additionally enclosed in this submission I've also included orchestral pieces entitled 'anxiety' and 'The challenge' for your perusal and a cover.
